New favourite desk organisers: elephants in grey nubuck leather

Our new little elephants in nubuck leather will add eye-catching appeal to your desk or shelf, while holding clutter at bay. Inside are flexible compartments made of high-quality Italian wool that give you space for corralling pens, cards, notes and other small items. Each one is carefully crafted by hand at a small factory in Italy. As the wonderfully soft nubuck leather ages, it will take on an authentic patina, giving your elephant an even more delightful and unique look the longer you have it.
